West Bend, WI 53095

The demands on you are bigger than ever. Are you ready?

Imagine if cost were not a concern.

Since 1994, schools across the United States have turned to AgEdNet.com. Instructors know they don't need to sacrifice quality because of budget concerns. What do educators get?

- A complete agriculture curriculum
- Over 1,250 lessons
- Aligned with specific AFNR Career Cluster Content Standards
- Only \$415 for all instructors and students - ask us about group rates for multiple schools in your district!

Find out why subscribers tell us we're the best.

Comprehensive

AgEdNet.com has more than kept pace with the increasing demands of agriculture education. With over 1,250 online lessons across 20 libraries, AgEdNet.com delivers on the key curriculum topics shaping the agriculture industry. Although written with agriculture instruction in mind, many of the topics are also suitable for areas such as family consumer education, career advising and general sciences.

Flexible

Agriculture instructors are teaching more topics, covering new technologies and reaching more students than ever before. Your agriculture curriculum needs to be flexible enough to address these needs and intuitive enough for substitute teachers when you're pulled away. AgEdNet.com makes it easy to use whenever and wherever you need it.

Affordable

AgEdNet.com is your affordable solution for already stretched budgets and the high cost of textbooks. One site license covers every teacher and student in your school for only \$415. There are no hidden costs and no hidden fees.

Available anywhere, at any time

In the fast-paced world of agriculture, teachers and students deserve access to timely materials that connect them to real-world information. That's what makes AgEdNet.com a smart solution for the busy classroom.

- Available on any device with internet access
- Unlimited access for instructors and students
- The versatile solution for instructors, whether they're in or out of the classroom

Make the call that can help deliver on both education excellence and budget targets.

What people are saying about AgEdNet.com:

"AgEdNet.com is so accessible for both me and my students. It's great that there is a student password that they can use and log on from anywhere they have internet access. I also find the topics in many of the libraries to be very concise and age-appropriate. I also like how many of the Ag Issues lessons present the topic without a lot of bias and provide the students with information about multiple sides to the argument."

Maralee S. | Rhode Island instructor

"The lessons are short, clear and informative. The exercise worksheets are very helpful as well. The format works well with my smart board and with our one-to-one student laptops for group work as well as self-guided work."

Eva W. | Ohio instructor

"Subscribing to the AgEdNet.com is a no-brainer! It has a daily agricultural news update which is perfect to keep your students informed about the Ag Issues they need to know about. Plus, the lesson plans available are excellent for nearly any topic taught. I used this resource every day I taught and highly recommend it to any AgEd teacher!"

Bill Jimmerson | Former Montana State FFA Advisor
